

_____’s Baking Class

Course Description: Learn how to bake ten different items. Become such a great baker that you can do it without any help.

Prerequisite: You may enroll in this class if you want to learn how to bake and if you are over the age of eight years old.

How: Learn from Mommy how to bake all of the items on the list below. Make each recipe once with Mommy teaching you, once with Mommy there to help as needed, and once all by yourself. Have Mommy sign when you have completed each item alone.

When: You may bake once each week on this day: _____. If that day won’t work out for some reason, Mommy will reschedule with you to arrange another time.

Content: Learn to bake the following ten items. Items 1-8 will be learned first. After successfully making the first eight items all by yourself, you may choose items 9 & 10.

Graduation: When you can make all ten items on your own without help, we will throw a big graduation party for you, and invite some of your friends to attend. You’ll be the baker for the evening and treat everyone to a feast of your favorite baked items! Mommy and Daddy will buy you your own cooking apron as a gift to celebrate.

My Baking Class

Baked Goods	Mommy taught me	I made it with Mommy watching	I made it all by myself!
